Settings

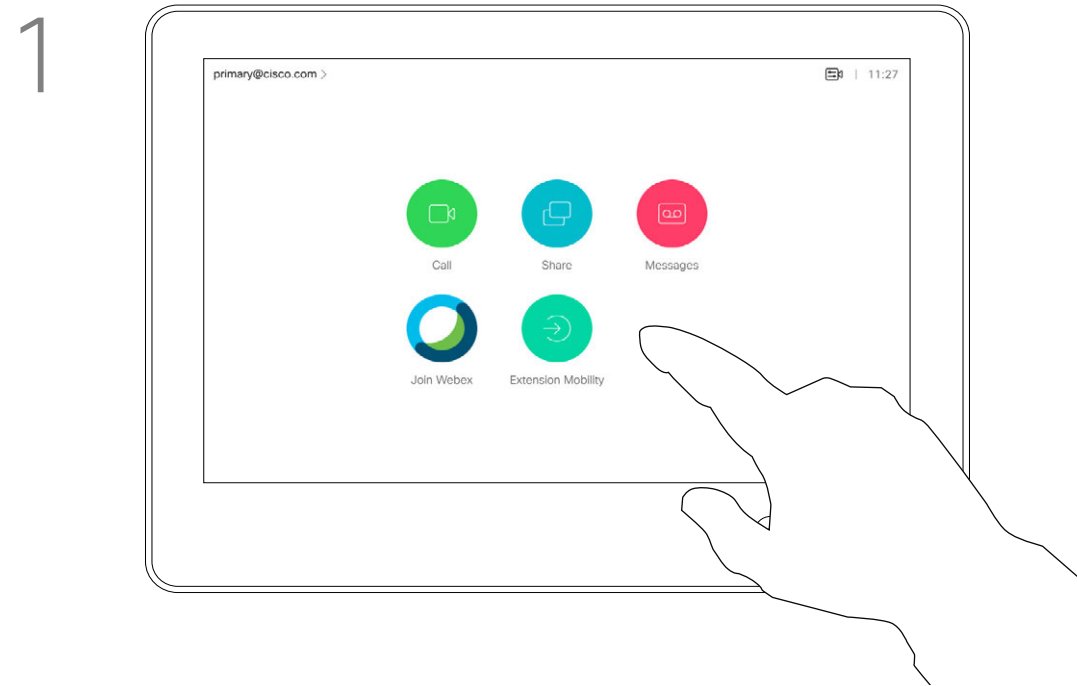

Access Settings 47

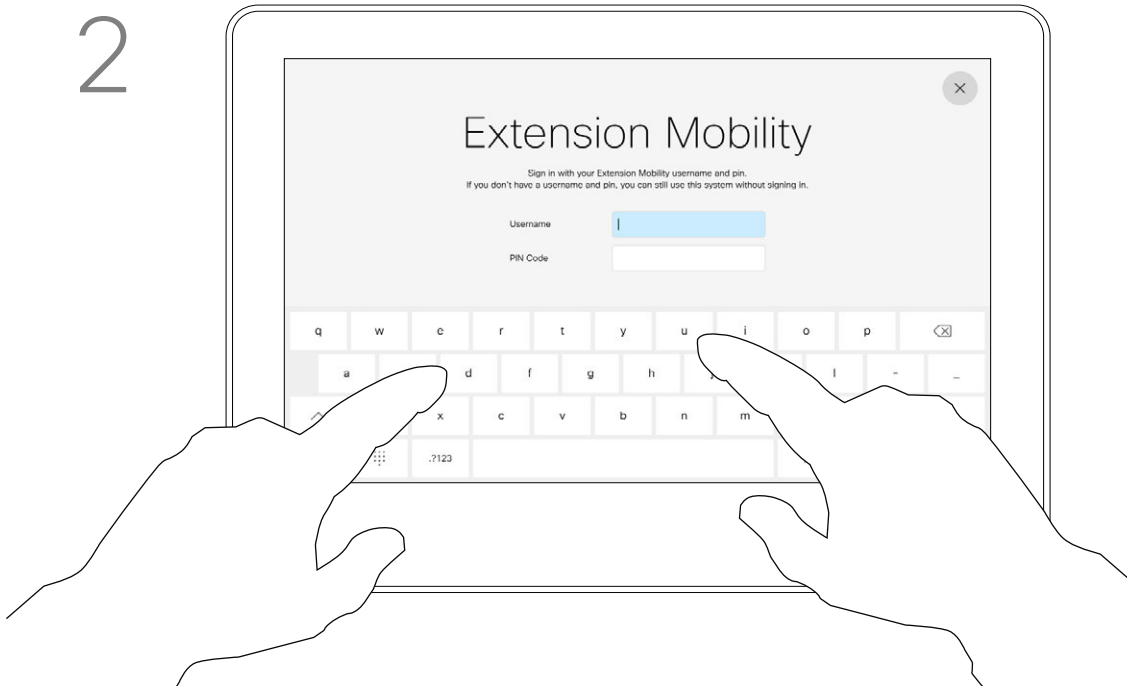

Introduction to Video Conferencing

Log On With Your Own Credentials

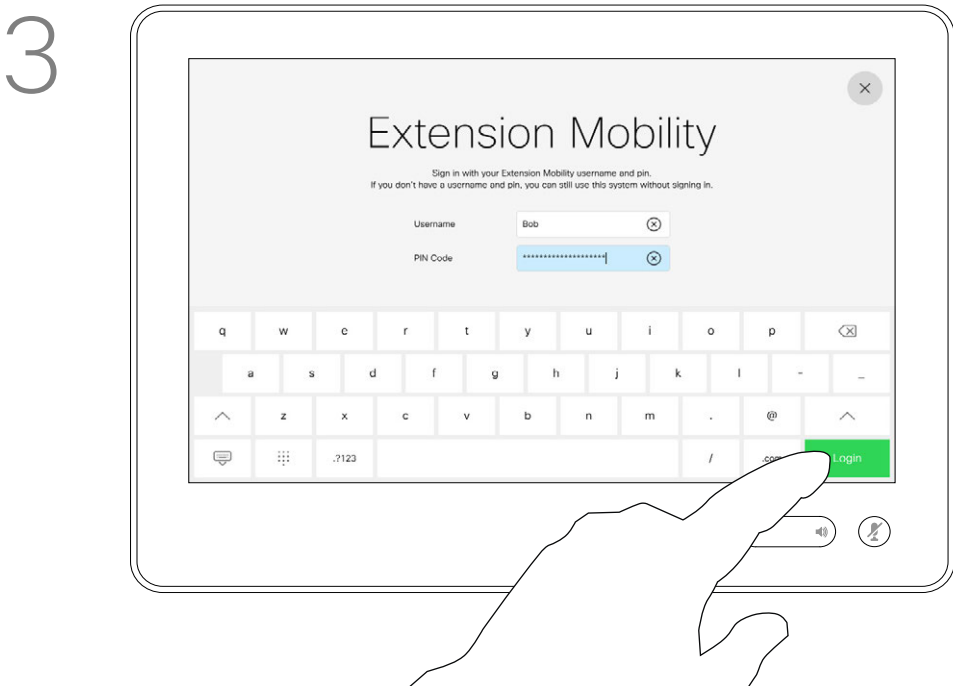

About Extension Mobility

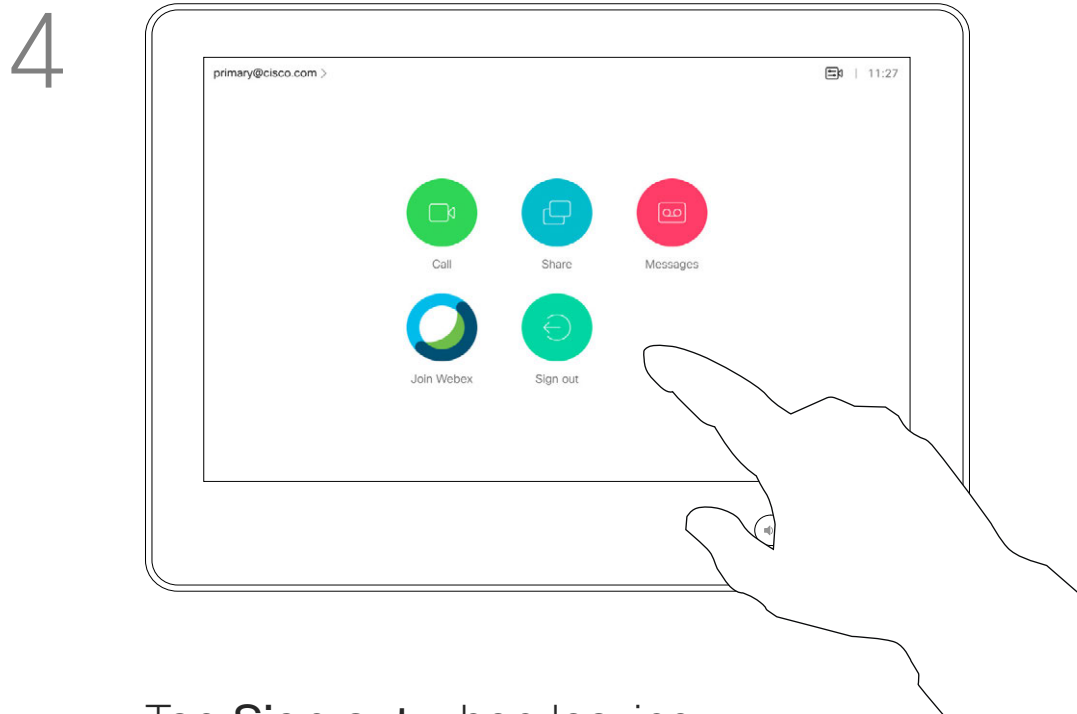

Extension Mobility enabled devices have an extra button to let you sign in to the device with your own credentials.
Tap the **Extension Mobility** button.

Key in Username and PIN code.

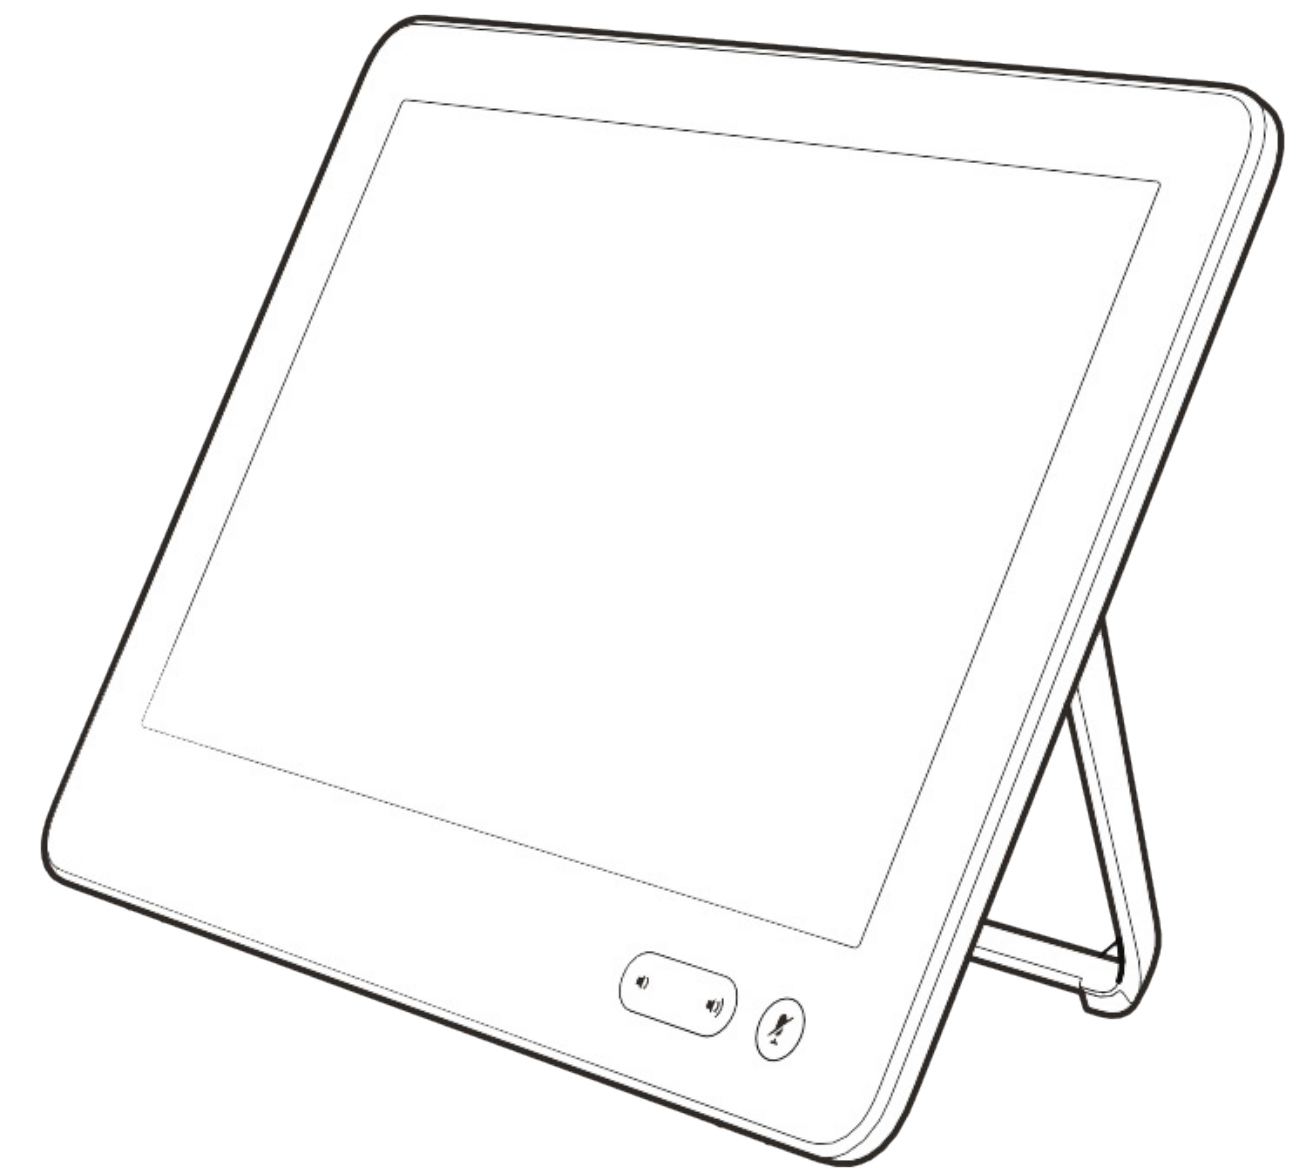

Tap **Login**, as shown

Tap **Sign out** when leaving.

Devices located in meeting rooms and quiet rooms and running under CUCM (Cisco Unified Communications Manager) may allow you to log in to the video device with your own personal credentials.
CUCM then routes all incoming calls destined for you to that specific device.
Once you log out from Extension Mobility your list of Recents is cleared from the device.
Extension Mobility is also referred to as Hot-desking.
